Assembly Instructions

Mountain fold (dotted line)
Make a mountain fold.

Valley fold (dashed and dotted line)
Make a valley fold.

Scissors line (solid line)
Cut along the line.

Cut in line (solid line)
Cut along the line.

Glue spot (Red dot)
Glue parts with the same number together.

Glue spot (Green dot)
Glue within the same part.

Glue spot (Blue dot)
Glue to the rear of the other part.

Tools and materials
Scissors, set square, glue (we recommend stick glue), pencil, used ballpoint pen, toothpicks, tweezers (useful for handling small parts).

Assembly tip
Before gluing, crease the paper along mountain fold and valley fold lines and make sure rounded sections are nice and stiff.

Caution
Glue, scissors and other tools may be dangerous to young children so be sure to keep them out of the reach of young children.

View of completed model
*This model was designed for Papercraft and may differ from the original in some respects.

Assembly Instructions: Seven A4 sheets (No.1 to No.7)
*Build the model by carefully reading the Assembly Instructions, in the parts sheet page order.

*Hint: Trace along the folds with a ruler and an exhausted pen (no ink) to get a sharper, easier fold.

Before starting assembly:
Writing the number of each section on its back side before cutting out the sections is highly recommended. (* This way, you can be sure which section is which even after cutting out the sections.)

[1] Assemble the rear, nameplate, and front sides of the stand and glue the front and rear sides together.
* Assemble both the left and right sides in the same way.

Glue the rear surfaces together.

[1] Assemble the rear, nameplate, and front sides of the stand and glue the front and rear sides together.
* Assemble both the left and right sides in the same way.

Glue the rear surfaces together.

Flex these parts before assembly.

Glue all seven of these parts together in the same way.

Insert the section and glue the tabs to the reverse side as shown in the illustration (for all five sections).

Glue all eight of these parts together in the same way.

Match the seams to the positions of the cut openings.

* The front of the hole for the central dome is its pointed side.

Flex these parts before assembly.

Fold outward.

Flex these parts before assembly.

Flex these parts before assembly.
Taj Mahal, India: Assembly Instructions

[3] Building

[2] Building foundation

The front side is the side with this protrusion.
[5] Assemble the four towers, glue them to the building foundation assembled in step [2], then glue these to the stand assembled in step [1].

Glue together at eight places, as shown in the illustration.

Match the seams to the positions of the cut openings.

The front side is the side with this protrusion.
