### Notation Key

- Scissors line
- Mountain fold
- Valley fold
- Glue spot

| Parts No. | A1, B1 |

The Pattern are divided into three blocks:
- A (head), B (body), and C (legs).
- Follow the instructions for each block to assemble your tiger.

**<Caution>**
- Keep scissors and glue away from small children.
- Be careful not to cut your fingers when using scissors.

Mammalia  Carnivora  Felidae  
- Length (incl. tail): approx. 1.4 to 2.8m (approx. 4.6 to 9.2feet)  
- Weight: approx. 90 to 306kg (approx. 198.4 to 674.6lbs)  
- Habitat: Rainforests, mangroves, boreal forests (taigas), etc.

Tigers are the largest members of the feline family. They inhabit a wide area of land, stretching from Siberia to north-eastern China, India, and Indochina and make their habitat mainly in rainforests, mangroves, and boreal forests (taigas). Tigers are not fast runners. However, they are able to jump amazingly well, a skill they make use of when sneaking up and pouncing on their prey. The hair on their back is yellow with black, horizontal stripes. Tigers found in the northern regions tend to be light yellow in color while those in the southern regions are more orangish. For food, tigers eat almost anything depending on what they can find in their place of habitat, from insects (locusts, etc.) and small animals to large ones such as deer, wild boars, and cows.
Head parts

Refer to Assembly Instructions: Page 1 / Page 2.

A6 Left ear
A7 Right ear
A1 Head
A3 Nose
A4 Mouth
A5 Jaw
A8 Neck
A2 Fur
Body Parts

Refer to Assembly Instructions: Page2 / Page3.

B1 Back

B2 Left shoulder

B3 Right shoulder
